Company Update | Frasers Centrepoint Trust (FCT SP/BUY/\$2.08/Target: S\$2.93)

Page 2 →

- URA's master plan would create vibrancy for the catchment area around Causeway Point. Woodlands Regional Centre, which includes Woodlands Gateway located right next to the Woodlands North MRT and RTS Link stations, would create 100,000 jobs. Residential population in the north region is expected to increase by 150,000-160,000 or 25-27% over the next 10-15 years. The additional retail sales leakage arising from the RTS Link is estimated at just 1-2ppt. Re-iterate BUY due to an attractive FY27 DPU yield of 6.3%. Target price: S\$2.93.

Market Spotlight

Page 5 →

- US stocks were mixed on Monday. The Dow Jones rose while the S&P 500 and Nasdaq fell as the energy, consumer staples and communication services sectors rose. There were more decliners than advancers on both NYSE and NASDAQ.
- The FSSTI rose 13.59 points to 5,415.48, on the back of strength in DBS and OCBC Bank, with both mid- and small-cap indices rising with a broad market advance on a S\$1.958b turnover.

Benefitting From Population And Job Growth In North Region

Highlights

- URA's master plan would create vibrancy for the catchment area around Causeway Point. Woodlands Regional Centre, which includes Woodlands Gateway located right next to the Woodlands North MRT and RTS Link stations, would create 100,000 jobs. The residential population in the north region is expected to increase by 150,000-160,000 or 25-27% over the next 10-15 years.
- The launch of RTS Link has been delayed to Feb 27. According to CBRE, retail sales leakage from Singapore to Johor Bahru is estimated to increase from the current 3-4% to 5% by 2032. The additional leakage arising from the RTS Link is estimated at just 1-2ppt.
- The sell-down for S-REITs was indiscriminate. Even Singapore-centric FCT corrected 9% from its recent peak of S\$2.28 in Jul 26. Re-iterate BUY due to its attractive FY27 DPU yield of 6.3%. Target price: S\$2.93.

Analysis

- During the latest National Day Rally on 17 Aug 26, PM Lawrence Wong, who is also the Member of Parliament for Marsiling-Yew Tee GRC, devoted a significant portion of his speech on the Urban Redevelopment Authority's (URA) master plan to develop the north region of Singapore, focusing on Woodlands, Sembawang and Kranji, over the next 10-15 years. In his words, the north region is no longer "ulu" – a Malay word meaning remote.
- North region a gateway to JS SEZ.** Woodlands Regional Centre would create 100,000 jobs with 100ha of land earmarked for future development. A key initiative is Woodlands Gateway, a district spanning 35ha with 2.2m sf of flexible industrial and office spaces designed to support companies combining manufacturing operations in Johor with regional HQ and other functions in Singapore. The district also includes lifestyle amenities and a transport hub connected to Woodlands North MRT and the Johor Bahru-Singapore RTS Link, helping businesses capitalise on the Johor-Singapore Special Economic Zone (JS SEZ). Taiwanese technology group FIC Global has committed to opening its regional innovation and supply chain centre in Woodlands Gateway, while maintaining its manufacturing base in Johor. The first phase of Woodlands Gateway is expected to complete in 2030.

Company Description

FCT is the largest owner of suburban retail malls in Singapore. It has nine suburban retail malls and one office building. Its suburban retail malls are located in populous residential estates and close proximity to public transportation amenities, such as MRT stations and bus interchanges.

- **Population growth significantly faster in north region.** Residential population in the north region is expected to increase by 150,000-160,000, representing growth of 25-27%, over the next 10-15 years. A 70ha housing area – Chenchau – within Yishun town will offer 10,000 new homes, comprising 80% public flats and 20% private homes. Woodlands North Coast (21ha) will provide 4,000 public flats, while Sembawang North (53ha) will add 10,000 homes (8,000 public flats and 2,000 private homes). In Kranji, 130ha across the former Singapore Racecourse is planned for redevelopment into an estate of 14,000 new homes, complemented by a neighbourhood centre at Kranji MRT station and surrounding nature areas. URA also envisages waterfront homes at the redeveloped Sembawang Shipyard, and will preserve its maritime heritage while introducing shopping, dining and recreational facilities. In total, 51,000 residential units will be added.
- **RTS Link provides an alternative to bus services.** The 4km RTS Link light rail shuttle is expected to shorten the cross-border journey between Woodlands North and Bukit Chagar to about five minutes and carry up to 10,000 passengers per hour in each direction. Immigration clearance for both countries is more efficient and carried out at the departure station. The RTS Link will serve as an alternative to bus services operated by SBS Transit and Causeway Link when operations commence in Feb 27. Singaporeans who drive to Johor Bahru are unlikely to switch to the RTS Link as driving provides the flexibility to visit various destinations during the same trip.
- **Limited incremental leakage from RTS Link.** Value-focused Singaporeans venture to Johor Bahru on day trips for dining, beauty treatments and shopping apparels and even groceries. Based on UOB internal transaction data, each credit cardholder spends more than S\$100 on average. According to CBRE, the retail sales leakage from Singapore to Johor Bahru is estimated to increase from the current 3-4% to 5% by 2032. The addition leakage arising from the RTS Link is estimated at just 1-2ppt. Singaporeans are known for their hectic lifestyles. Thus, frequent trips to Johor Bahru are untenable after the initial novelty of the RTS Link wears off.
- **Fortifying Causeway Point.** Frasers Centrepoint Trust (FCT) plans to transform Causeway Point (CWP) into a regional mall, leveraging on its physical location as the connection hub in the north region (Woodlands MRT station is an interchange for the North-South Line and Thomson-East Coast Line). The AEI is scheduled to commence in Apr 27. FCT will rebalance the tenant mix by adding unique experiential, educational and health/wellness brands. Many of these new offerings are new-to-Frasers brands with regional reach and appeal, thus enlarging CWP's population catchment.

Valuation/Recommendation

- **Maintain BUY.** Our target price of S\$2.93 is based on DDM (cost of equity: 6.4%, terminal growth: 2.0%).

Earnings Revision/Risk

- We maintain our existing DPU forecast.

Share Price Catalyst

- Increase in shopper traffic and tenant sales, driven by growth in domestic consumption, supported by rising population and household income; and b) AEIs for Hougang Mall, NEX and Causeway Point.

Market News

US stocks were mixed on Monday, as the energy, consumer staples and communication services sectors led shares higher. At the close of the NYSE, the Dow Jones rose 0.38% while the S&P 500 Index was down 0.06% and the NASDAQ Composite Index slid 0.44%. Falling stocks outnumbered advancing ones on the NYSE by 1,434 to 1,290 and 72 ended unchanged; on the Nasdaq Stock Exchange, 2,939 declined and 1,854 advanced, while 166 ended unchanged.

During the last trading session, the FSSTI Index rose 13.59pt to 5,415.48. Among the top active stocks were Seatrium (-2.5%), DBS (+0.8%), UMS (-2.5%), SIA (-0.2%) and Sheng Siong (-2.1%). The FTSE ST Mid Cap Index fell 0.2%, while the FTSE ST Small Cap Index slid 1.2%. The broader market had 247 gainers and 282 losers with a total trading value of S\$1.95b.

Hongkong Land (HKL SP)

Trading sell range:	US\$8.02-8.03
Last price:	US\$7.93
Target price:	US\$7.17
Protective stop:	US\$8.25

The price executed a series of lower highs and lower lows that confirms a bearish trend hierarchy. The RSI remains below its neutral 50-midline and continues to slope downward, signalling expanding negative momentum velocity. As long as the price remains capped beneath local lower-high swing, we see a continuation of the downward trend, pointing toward a decisive breakdown below the recent low toward lower support.

The potential downside target is US\$7.17. Stop-loss could be placed at US\$8.25.

Approximate timeframe on average: 1-2 weeks (initiate this trade idea if the stock hits the entry price range within three trading days)

Seatrium (STM SP)

Trading sell range:	S\$1.97-1.98
Last price:	S\$1.95
Target price:	S\$1.82
Protective stop:	S\$2.06

The price executed a decisive downward expansion following a successful capping from its support-turned-resistance zone. The RSI remains in bearish territory and continues to slope downward with negative velocity. As long as the price remains underneath this newly converted resistance, we see continued downward expansion toward lower support.

The potential downside target is S\$1.82. Stop-loss could be placed at S\$2.06.

Approximate timeframe on average: 1-2 weeks (initiate this trade idea if the stock hits the entry price range within three trading days)

Our institutional research has a fundamental HOLD and target price of S\$2.30.
