Company Description

MLT is an Asia-focused logistics REIT with logistics properties across Australia, China, Hong Kong, India, Japan, Malaysia, Singapore, South Korea and Vietnam.

- **China rental pressure continues to ease unevenly.** There are early signs of rent stabilisation in West and Central China and moderating rental declines in East China as supply pressures eased. New supply remained concentrated in South and North China, where rents continued to decline. MLT's improving China occupancy and smaller negative reversions point to gradual stabilisation, although rental growth has yet to resume.
- **Capital recycling gathers pace.** MLT has executed S$243m divestments in 1HFY27 at an average 3.1% premium to valuation. These include the two Wuxi assets being sold to the sponsor-led RMB Fund with completion expected in Jan 27. The sales of 39 Changi South Avenue 2 in Singapore and 365 Fitzgerald Road in Victoria, Australia were already completed in Oct 26. Mapletree Northwest Logistics Park in Shanghai, China is scheduled to complete in 3QFY28 respectively. To date, MLT has completed over S$500m in divestments from its identified pipeline of S$1b.
- **Lower gearing reflects temporary refinancing effects.** Aggregate leverage fell 3.0ppt qoq to 37.5% as of Sep 26, as proceeds from S$400m of 3.5% perpetual securities issued in Aug 26 was temporarily utilised to repay bank loans ahead of redemption for the existing S$400m perpetual securities in Nov 26. Pro forma gearing without this timing difference is 40.4%.
- **Funding diversification and hedging temper financing risks.** MLT issued its maiden CNY500m three-year offshore renminbi bond at a 2.1% coupon. Debt hedged or drawn at fixed rates was 90% (83% excluding the perpetual refinancing timing effect). Average debt duration was 3.4 years, while interest coverage ratio was 2.9x. Average borrowing cost rose 0.1ppt yoy to 2.7% in 2QFY27, with FY27 guidance maintained at 2.7-2.8%. Management guided for higher cost of debt at 2.9-3.0% in FY28.

Valuation/Recommendation

- **Portfolio rejuvenation through selective divestments and disciplined acquisitions.** MLT is focused on sustaining occupancy, rental stability and cost efficiency, given ongoing headwinds from higher-for-longer borrowing costs. Tenants serving domestic consumption accounted for 85% of MLT's revenue, while export businesses accounted for a smaller 15% of revenue.
- **Redeveloping Changi South to strengthen Singapore portfolio.** MLT plans to redevelop 9 and 15 Changi South Street 2 into its first modern ramp-up logistics facility in eastern Singapore. The five-storey Grade A ramp-up warehouse will increase GFA by 34% to 499,666sf. Construction for its fifth development in Singapore at an estimated cost of S$141m is expected to commence in 1Q27 and complete in 2Q29. The project targets demand for modern logistics space amid limited supply in the area.
- **Unlocking value of 201 Keppel Road.** Sponsor Mapletree Investments has deferred its call option over 201 Keppel Road, which allows MLT to retain rental income as Prima's lease is also extended to 31 Jan 28. The 24-hectare site with the historic Keppel Road flour mill is located within the Greater Southern Waterfront. It has a unique revolving restaurant on top of the flour mill's wheat grain silo, making the property a distinctive local landmark. The property could be redeveloped into a mixed-use development with residential and commercial components. 201 Keppel Road is currently valued at S$51.2m as of Mar 26. MLT could divest the property to Mapletree Investments based on the average of two independent valuations, which reflects the potential change of use.
- **Upgrade to BUY.** Our target price of S$1.23 is based on Dividend Discount Model (cost of equity: 7.45%, terminal growth: 2.0% (previous: 1.5%)). We raised terminal growth to 2.0% as negative reversion from China has eased.

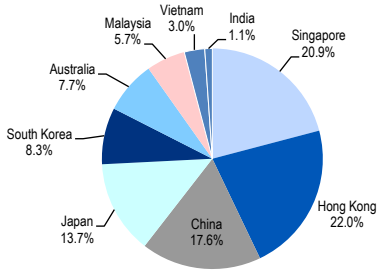

Earnings Revision/Risk

- We raised our DPU forecast by 1.8% for FY27 and 1.0% for FY28 due to higher rents in Singapore, Japan and India.

Share Price Catalyst

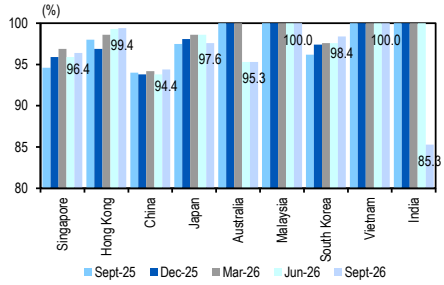

- Repositioning towards modern logistics facilities, domestic consumption and e-commerce; b) redevelopment projects in Singapore and Malaysia; and c) potential divestment of 201 Keppel Road.
